👤 SUMMARY

Dynamic Full-Stack Developer, Mobile Engineer, and UI/UX Designer with a strong track record in educational technology and community leadership. Co-founder of AcadMate and Public Relations Officer for the Faculty of Computing and Informatics (FOCI/CISA). Experienced in integrating AI into real-world applications (multi-platform bots), building full-stack learning platforms, and designing engaging mobile experiences. Proven hackathon competitor (Squadco, Cavista STC) passionate about driving student innovation, cross-functional collaboration, and leveraging modern frameworks to solve complex problems.

🎓 EDUCATION

B.Sc. in Computer Science (In View)

University of Lagos

Expected Graduation: 2028

Current CGPA: 4.55/5.00

2028

Lagos, Nigeria

Diploma in Software Engineering

Altschool Africa

Scholarship Awardee

04/2026 – 12/2026

Remote/Lagos,

Nigeria

High School Diploma

Dominican College

Graduated: Jul 2024

07/2024

Mafoluku-Oshodi,

Lagos, Nigeria

🧩 LEADERSHIP & COMMUNITY INVOLVEMENT

Public Relations Officer

Faculty of Computing and Informatics (FOCI/CISA), University Of Lagos

- Spearhead official communications, public relations strategy, and community engagement initiatives for the computing and informatics student body.
- Act as the primary liaison between the faculty executive board, students, and external tech communities to foster collaboration and share opportunities.

08/2026 – Present

National Teens Vice President,

Redeemed Christian Church of God (RCCG)

- Serve as executive leader supporting the national teens ministry President in strategic planning, oversight, and execution of youth development programs across Nigeria.
- Coordinated national/regional events, workshops, and outreach initiatives, engaging thousands of teens to build leadership, spiritual growth, and community participation.
- Fostered collaboration with provincial leaders, pastors, and stakeholders; gathered feedback, resolved challenges, and promoted youth engagement campaigns nationwide.

2025 – Present

Nigeria

PROJECTS

S-Track -Mobile Fitness & Community App

- Developed a mobile application (using React Native) designed to track daily physical activity including steps, walks, and runs.
- Integrated interactive community engagement features to foster user retention, gamification, and social sharing among fitness enthusiasts.

Teens Church Website (Faith Tribe / RCCG)

2025 – Present

- Built and maintained responsive website for teen ministry, integrating Claude for content generation, user flow prototyping, feature ideation, and rapid iteration.
- Created accessible digital resources serving community members, showcasing AI-assisted development workflows.

Multi-Platform AI Bot Ecosystem

- Engineered and deployed a suite of automated conversational agents across multiple platforms, including the "Jestutobi" WhatsApp bot, a custom Slack bot, and a Telegram bot.
- Integrated AI capabilities into the Telegram bot to serve as an on-demand academic helper for students, utilizing Node.js and modern API integrations

University Crash Course Platform

- Built and deployed an accessible e-learning web application specifically designed to host crash courses and intensive study materials.
- Streamlined content delivery and user navigation, directly assisting university coursemates in preparing for complex technical examinations.

Claude-Integrated WhatsApp Bot

2025 – Present

- Developed a fully functional interactive WhatsApp bot using Claude API, Node.js, and JavaScript for natural language processing, automated responses, and real-time user queries.
- Demonstrated practical AI application for community tools, education, or Q&A — ideal for demo nights or student builder showcases.

AI-Enhanced UI/UX Prototyping (Ongoing)

- Leveraged Claude in major personal and team projects to generate user personas, wireframes, interaction flows, and accelerate design-to-code handoffs.
- Improved prototyping efficiency and user-centered outcomes using AI tools alongside Figma, React.js, and Tailwind CSS.

EXPERIENCE

Co-founder and Lead Developer

AcadMate Business Consult

05/2025 – Present

Remote/ Lagos,
Nigeria

- Engineered and launched acadmate.com.ng , a comprehensive digital learning platform tailored for JAMB and Post-UTME candidates.
- Developed robust backend architectures and intuitive frontend interfaces to host practice questions, study resources, and automated assessments.

Hackathon Competitor & Software Engineer

2025 – Present

Squadco Hackathon & Cavista Hackathon

- Collaborated in high-pressure, fast-paced engineering environments to prototype, build, and pitch technical solutions.
- Leveraged full-stack tools and APIs to develop functional minimum viable products (MVPs) alongside cross-functional team members.

UI/UX Designer

Team Hacktivity

01/2025 – Present
Lagos, Nigeria

- Participated in design brainstorming sessions, generating creative concepts for new product features.
- Optimized web pages for speed and scalability using best UI/UX practices.
- Conducted stakeholder interviews, surveys, and workshops to gather design requirements.
- Designed and implemented custom web application interfaces using HTML and CSS.

Broadcast Technician & Media Team Lead

Dominican College

09/2021 – 08/2024
Mafoluku-Oshodi,
Lagos

- Configured studio cameras and managed remote settings for live broadcasts..
- Ensured proper signal routing and system setup during production. Collaborated with producers, directors, and editors for smooth live TV operations. Created detailed repair and maintenance reports for broadcast equipment. Resolved technical issues quickly to prevent downtime.

 SKILLS

Communication/Outreach

- Stakeholder Engagement,
- Requirement Gathering,
- Event Coordination,
- Public Speaking/Presentation

Soft Skills

- Collaboration,
- Problem Solving,
- Leadership,
- Team Coordination

Design & UX

- User Interface Design,
- Web Optimization,
- Graphic Design,
- Prototyping

AI & Tools

- Figma
- Canva
- Claude (Prompting & API Integration)

Web Development

- JavaScript (ES6+)
- TypeScript,
- Python,
- SQL,
- HTML5,
- CSS3
- React.js,
- Next.js,
- React Native,
- Node.js,
- Tailwind CSS
